

CTi® has set the standard for *truly* custom ligament bracing for more than 20 years. And now we've redesigned this classic with a host of new improvements, like proprietary *Sensil*® padding that eliminates migration, a flexible lower medial cuff for greater protection against rotational forces and skin-friendly *SensEdge* overmolding to avoid pressure points. Find out why CTi knee braces are demanded by top athletes and respected by leading physicians around the world.

INDICATIONS & USAGE

- ACL, MCL, LCL, PCL, rotary and combined instabilities
- High to low impact levels are covered by 3 models (see below)
